Art Unit: 1644

1. Claims 18-30, 32, 35-47, 49 and newly added claims 52-57 are pending.
2. It is noted that in applicant's listing of the claims, the withdrawn claims are identified as previously presented, which is incorrect. Please review 37 CFR 1.121 and MPEP section 714 for proper claim submission.
3. Claims 24, 30, 32, 41-47 and 49 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the Paper received 10-24-03.
4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
5. Claims 18-23, 25-29, 35-40 and 52-57 are rejected under 35 U.S.C. 102(b) as being anticipated by Torii et al.

Applicant's arguments received 7-16-04 have been fully considered but are not found persuasive.

Applicant argues that Torii et al., does not teach a point of care test that can be performed by a patient in a bed side, chair side or an on-field environment.

However, this limitation is not claimed in the base claim 18. In addition, Torii et al., teaches a one-step sandwich EIA that could easily be performed by a researcher in a chair. It is noted that the concept of one-step sandwich EIA are commonly used in at home pregnancy tests.

Applicant argues that Torii et al., is limited to disclosing ARDS while the instant invention can be used in a wide variety of chronic inflammatory lung diseases.

A species always anticipates a genus.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
